GHS SIGNAL WORD: WARNING
GHS HAZARD STATEMENTS: GHS - Health Hazard Statement(s) Causes serious eye irritation Causes skin irritation Harmful if swallowed
GHS - Precautionary Statement(s) - Prevention Wear eye protection/face protection Wear protective gloves Wash thoroughly after handling Do not eat, drink or smoke when using this product
GHS - Precautionary Statement(s) - Response IF IN EYES
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
IF ON SKIN Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
IF SWALLOWED Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth Specific treatment.
GHS - Precautionary Statement(s) - Storage There are no Precautionary-Storage phrases assigned
GHS - Precautionary Statement(s) - Disposal Dispose of contents and container in accordance with applicable local, regional, national, and/or international regulations.
Hazards Not Otherwise Classified (HNOC) None identified
4. First-aid measures
Eye Contact
Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Cold water may be used. Seek medical attention.

Ruko Wadungasri Permai Blok B no. 08 Jl. Wadungasri 46-48 Rt. 004 Rw. 002 Wadungasri, Waru Kab. Sidoarjo, Jawa Timur 61256

Skin Contact In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Seek medical attention. Inhalation Get medical attention Ingestion Do not induce vomiting unless directed to do so by medical personnel. Maintain an open airway. Seek immediate medical attention. Notes of physician No specific treatment. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. 5. Fire and Explosion Data Flammability of the product Not flammable materials Suitable extinguishing media Not readily combustible. Use foam, dry chemical or carbon dioxide Unsuitable extinguishing media for safety reasons Do not use water jet Special protective equipment for fire-fighting Special protective equipment for firefighters, self-contained breathing apparatus. Special Hazards of Product Combustion will produce smoke, carbon dioxide and carbon Monoxide. 6. Accidental release measures Small Spill Use appropriate tools to put the spilled solid I a convenient waste disposal container. Finish cleaning by vacuum or sweep and place in a designated, labelled waste container. Large Spill Use a shovel to put the material into a convenient waste disposal container. Neutralize the residue with a dilute solution of acetic acid. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system. Personal precautoins Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing dust. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

Ruko Wadungasri Permai Blok B no. 08 Jl. Wadungasri 46-48 Rt. 004 Rw. 002 Wadungasri, Waru Kab. Sidoarjo, Jawa Timur 61256

#### Environmental precautions

Avoid dispersal or spilt material and runoff and contact with soil, waterwasy, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## 7. Handling and storage

Handling

Keep away from heat. Keep away from sources of ignition. Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material. Do not breathe dust. Avoid contact with eyes. Wear suitable protective clothing. If you feel unwell, seek medical attention and show the label when possible.

#### Storage

Keep container dry. Keep in a cool place. Ground all equipment containing material. Keep container tightly closed. Keep in a cool, well-ventilated place. Combustible materials should be stored away from extreme heat and away from strong oxidizing agents.

## 8. Exposure Controls/Personal Protection

Engineering Controls

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operation generate dust, fume, or mist, use ventilation to keep exposure to airborne contaminant below the exposure limits.

Personal Protection Splash goggles lab coat. Dust respirator. Be sure to use an approved/certified respirator or equivalent.

### Personal Protection in Case of a Large Spill

Splash goggles. Full suit. Dust respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist before handling this product.

### Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

#### Environmental exposure controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

May cause irritation.

#### Chronic effects

Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

## 12. Ecological information

The product is insoluble in water

Persistence/degradability The product is expected to be not readily biodegradable

Ecotoxicity This material is harmful to aquatic organisms

# 13. Disposal considerations

Product

Mobility

Recommendations See chapter 15, national regulations. Must be disposed of in a special waste disposal unit in accordance with the corresponding regulations

Contaminated packaging Recommendations Completely emptied packaging can be given for recycling Packaging that cannot be cleaned should be disposed of as product waste
